SUMMARY

Result-oriented Front-end and back-end technology expert with a broad skill set as a Full Stack MERN Developer. I provide a dynamic approach to online application development with my strong foundation in **HTML, CSS, SCSS, Bootstrap, Material UI, Tailwind, React, and Redux** on the front end and my expertise in **Node.js, Express, NestJS, Prisma, and Mongoos**e on the back end. adept at managing databases using **PostgreSQL and MongoDB,** and knowledgeable about using **Bitbucket, Jira, and Git** to facilitate productive teamwork. shown deployment skills on **AWS, cPanel, Heroku, and Netlify** platforms.

SKILLS

- **Front-end Technologies:**
  HTML, CSS, SCSS
  Bootstrap, Material UI, Tailwind
  React, Redux, Nextjs
- **Back-end Technologies:**
  Node.js, Express, NestJS
  Prisma, Mongoose
- **Database Management:**
  MongoDB, PostgreSQL
- **Development Tools:**
  Git, Jira, Bitbucket
- **Deployment:**
  Docker,Netlify, Heroku, cPanel, AWS

PROFESSIONAL EXPERIENCE

- **Nijomee Technologies (Feb 2023 - Ongoing)**
  During the past year, I led the adoption and implementation of **NestJS** as a Backend Developer, leveraging its modular architecture to optimize server-side applications. I oversaw **PostgreSQL databases**, making sure that data was accurate and using Docker to facilitate easy deployment and scalability. Database interactions were improved by integrating **Prisma ORM**. Working with cross-functional teams, I helped with continuous improvement and code reviews. My technical abilities have improved as a result of this experience, and I've been able to contribute significantly to the creation and implementation of vital backend services.

- **ProjectNinza (June 2022- Nov 2022)**
  As a Frontend Developer for 6 months, I specialized in **Next.js** for optimized performance, **React** and **Redux** for dynamic components, and Tailwind CSS for responsive design. Implemented efficient forms using **React Hook Form**, contributing to an enhanced user experience.

- **Dzone India (March 2022- May 2022)**
  Full Stack MERN Developer on a 3-month Travel Project, building responsive **React** interfaces, implementing **Express.js** for the backend, and utilizing **Git** for version control.
